About This Game

This game is for advanced players of the Supaplex world with a lot of new adventures! A new level of complexity and enthusiasm! There are many levels where one has to think a lot, but the largest part of the game requires good reactions. That's why its motto is: *RUN! BUT DON'T FORGET TO THINK!*

We have also added new features to this incredible adventure! Here are just some of them:

- UNIQUE GAME LOGIC
- FULL SCREEN MODE
- WINDOWED MODE
- SPEED CONTROL
- SAVE/LOAD
- ZOOM

AND ONE MORE THING...

Make yourself comfortable!
You are about to experience a great adventure!

UFO Aftershock is the second of the three and in my opinion the best of them. Aftershock follows on after the first, the Biomass has taken over and colonies of mutants are appearing, both friendly and unfriendly. Aftershock follows more of a story line with side missions of helping other fractions for rewards such as territory and favour.

The weaponry is far larger than Aftermath, bringing in alien weapons to begin with, to then creating various human weapons, to stronger energy weapons. Each of the human weapons can have customisations such as stabilisers, scopes and muzzles to improve them further.

Soldiers can be trained still, but furthermore the player now has input into what stats are enhanced, meaning that if you want to create a squad of Snipers, you're not waiting for the right soldiers to come by with the right traits, but with the investment of time can make them yourself. This offer a great deal more personalisation to squad development.

Two new troop types have been added aswell appearing as Psionics with telepathic abilities and the Cyborgs who can manipulate implants that enhance stats.

Combat is a lot easier, however when moving troops during live play, can often lead to difficulties as the actions switch to any character whose finished an order, or pausing for various reasons. This is a decent RTS that rivals most recent releases and for a game nearly 10 years old, it has fantastic playability and easily 60-100 hours of gameplay.

The full screen issue I would say is not a problem. I play on a 22" and have some small black lines down each side, but it doesnt take anything away from the game. There are fixes and patches on the news link where the developer of fix has commented for anyone who needs really wants full screen.

Check out my video below for the first 15 minutes of play which show you a number the features discussed above.

<https://www.youtube.com/watch?v=HvPGWLqKo6A>. DO NOT BUY THIS BEFORE TESTING THE GAME. You cannot refund it if the game runs poorly.. they changed Double Dragon II's control scheme to the 1 & 3 controls and that is just flat unacceptable. no stars. Do not buy this ... it is destined to become abandonware ...

DTG are developing a pro version of the 390 with actual VT livery ...

It doesnt matter how cheap it is, you will still be buying a chocolate teapot if you buy this ...

If this is still on sale after the new version is released its primary function will be as an "idiot test". This game took me on an existential journey like no game before it. It helped me understand who I am as a man, and what my purpose on this planet is. Pick up this game if you are looking for a transformative experience that will give you new insights into the inner workings of humanity. Truly a marvel.. If Sonic was Axe's pet, this game would be Axe.. Deceptively simple, especially in the first few levels. Drop Alive is a short, sweet little game with a whimsical soundtrack and an adorable drop of water as the main and only character. Collecting all the tokens can be surprisingly frustrating and there are *no* checkpoints in levels, so be prepared.

Great way to pass the time. And it's free! What are you waiting for?. Egosoft has finally made X Rebirth the best game in the series!

Like Donald Trump would say: Sounds good, doesn't work.

It is an abandonware for a while now, official servers are terrible, net-code is janky, the game is laughably easy to hack and there's no Linux support. Sad.. gameplay from my few ours is pretty ok. great waste of time.

heres how my game went.

1.pick jake

2.find a high spot/ledge where i cant be hit

3.spam meteor until i win.

4.level up meteor to get more projectiles

5.repeat. Cute, genuinely funny, and happy game. :D. Arrg buy this no me hearty or walk the plank! It be worth its weight in gold me boy!. Great game, Really cheap and really fun however it is very challenging and hard full of puzzles and timing,

I would strongly recommend this game but watch out, you might rage quit.. The concept and depth is fine for an indie game, it has some reminiscence to the old flash games of the dawn of the internet, but the controls (mostly the weapon swap) feel clunky, and the view is way too close to the char, forcing you to go on zoom out mode... which doesn't allow you to take any action other than shooting.

Has potential, but I'm not enjoying it at the moment.. Very solid game at this price! There a few things here and there to improve up but still very enjoyable experience. Give it a try, glad that I did.

Performance is improved.:

Performance is improved. Space-time breaks are fixed. The garbage is cleaned, the dishes are washed. See you in the

SUPAPLEX universe!. **iMprovements.:**

Some improvements for game controllers and leaderboard.
